

# St. Michaels University School

Outstanding preparation for higher learning and for life.

March 11<sup>th</sup>, 2008

**Re: Joel Tremblay - Reference**

To whom it may concern,

Joel Tremblay has asked me to write a letter attesting to his involvement and commitment during his time here at St Michaels University School. As a Residential and Coaching Intern, Joel has been involved in a wide variety of aspects of the School. He is associated with Harvey House, one of our male residences, and does duties there. During these times he is responsible for the operation of the house and deals with anything that arises. Additionally, Joel has had several athletic responsibilities, including coaching school related teams at both the Middle and Senior School levels. He has also acted as one of the organizers for several of our House Games and intramural competitions. His efforts have been greatly appreciated.

Joel has also demonstrated a real passion for art. Over the course of the year, he has covered a number art classes in the teacher's absence, and he has also helped to spearhead this year's after-school Art Club. His dedication to this program has been remarkable. Perhaps as a result of this, the Parents Auxiliary has recently asked him to co-ordinate the creation of a student mural in one of their new spaces.

Joel is certainly one who jumps in with full enthusiasm, and I strongly support him as he decides to move on and explore new and exciting career opportunities. If you have any further questions or require more details, please don't hesitate to contact me by phone at (250)-413-7551, or e-mail at [campbell.hall@smus.bc.ca](mailto:campbell.hall@smus.bc.ca).

Respectfully,

Campbell Hall  
Director of Residence  
St Michaels University School
